

IOMEGA® FAMILY OF NETWORK STORAGE PRODUCTS

Network File Sharing Made Easy!

- » Store, secure and share up to 2TB of your valuable data
- » Enjoy sophisticated features such as print and media server capabilities
- » Protect your data with EMC backup software and advanced RAID security

◀ Iomega StorCenter™ ix2 Network Storage

From simple and effective to sophisticated and feature-rich, Iomega Network Storage products offer the right solution for storing, securing and sharing your important files.

FLEXIBLE OPTIONS Iomega Network Storage products are the solution for easily sharing and storing important files over your network, without the added cost of a complex server. If you need a more feature-rich product that includes sophisticated benefits such as RAID security, plus print and media server capabilities, the StorCenter Network Storage product line is the right choice for you.

SECURITY Industry-leading EMC® Retrospect® Express professional-level backup and disaster recovery software is included, to secure all your critical data. Visit www.iomega.com for the latest software information and specifications.

EASE-OF-USE The Iomega Discovery Tool simplifies installation and set-up, so you'll be up and running in a matter of minutes.

Home Network Storage

Iomega® StorCenter™ Network Storage

High Performance Professional Network Storage!

For small office environments and professional users, Iomega offers the feature-rich family of StorCenter Network Storage products. In capacities from 500GB up to 2TB, these high performing network storage solutions offer sophisticated features such as RAID security, ADS support, plus print and media server capabilities. The Iomega StorCenter Network Storage products offer easy,

high performing network storage for any small office network. A fast 400MHz processor and SATA II hard drives ensure high performance. Two USB host ports allow for added expansion and print server capability. And with award-winning EMC Retrospect backup & disaster recovery software included, these network hard drives are sharing & protecting files while increasing network storage capacity. Available in 500GB, 750GB, 1TB and 2TB capacities.

Iomega Home Network Storage

Home Network File Sharing Made Easy!

The Iomega Home Network Storage product offers an easy way to share files over your home network. Share photos, music and video plus increase your network storage with up to 1TB

of storage capacity. The Discovery Tool Home utility (PC) makes set-up a snap and automatically configures to work with any computer on your network. This cost-effective network hard drive includes EMC Retrospect HD software for Touch-Free™ backup of all your important files. Available in 320GB, 500GB, and 1TB capacities.

Service and Support

Iomega network storage products are designed to provide years of trouble-free data protection and system reliability. All Iomega drives come with a standard 1-year warranty, M-F 9am to 10pm EST telephone and live 1-on-1 chat support plus unlimited access to Iomega's knowledge base.

Optional Silver service plans provide additional services and support. Find out more about these plans by visiting www.iomega.com
